

Dear Neighbor,

Did you know there are bluebirds right here in our neighborhood?

Maybe you have seen these beautiful birds as they fly through your yard, or stop for a drink from your birdbath. Perhaps you even have a nest box somewhere on your property. I currently have bluebird nest boxes set up on my own property. But, I have noticed that many people in the neighborhood with the perfect spot for a bluebird nest box do not have one. It may be because they didn't realize bluebirds were nesting nearby, or because they thought setting up a nest box would be expensive or time-consuming.

Since bluebirds are territorial, I am limited in the number of nest boxes I can install on my own property. I would love to help more bluebirds than I can accommodate on my property. If you would be interested, I would be happy to install a nest box on your property and monitor it for you weekly during the breeding season. Each week a written record is made of the state of the box and its occupants. I would also be glad to show the nest, eggs, and baby birds to you and your family as they hatch and begin to grow. This is a wonderful way for children and adults to learn about and enjoy nature, while helping a very beautiful bird.

Please call me and let me know if you have any questions, or if you want more information. Let's make this a *Bluebird neighborhood!*

Your neighbor,

Phone#
